THE THEATRE

Strand Theatre
The famous morality play, "Everywoman," has been made into a motion picture and will be shown at the Strand Theatre Thursday and Friday. The story is declared to have been filmed on an extremely lavish scale and to abound in beautiful settings, lovely women attired in handsome gowns, and spectacular effects. Against this extravagant background Walter Browne's celebrated allegory of life and its temptations is acted by an extraordinary cast of players. The role of Everywoman is played by Violet Heming, a beautiful actress well known on the stage and the screen. Monte Blue has the part of Love, Wanda Hawley is Beauty, and Theodore Roberts is Wealth. Others in the company include Margaret Loomis, Mildred Reardon, Rebe Daniels, Irving Cummings, Raymond Hatton, Noah Beery, Charles Ogle, and Tully Marshall. The picture was directed by George H. Melford and is released as a Paramount-Aftercraft photoplay.

LOSS OF APPETITE

As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or only two meals a day for a few days you will soon have a relish for your meals when meal time comes. Bear in mind that at least five hours should always elapse between meals so as to give the food ample time to digest and the stomach a period of rest before a second meal is taken. Then if you eat no more than you crave and take a reasonable amount of outdoor exercise every day you will not need to worry about your appetite. When the loss of appetite is caused by constipation as is often the case, that should be corrected at once. A dose of Chamberlain's Tablets will do it.

THE SIGN OF QUALITY

LILY WHITE

"The Flour the Best Cooks Use"

America's Finest Milling Product

From the raw material to the sack, LILY WHITE is unsurpassed. It is a product of the choicest blend of wheat grown in America. This gives just the right balance. The milling processes are scientific, exact. No mill in the world is better equipped. In few are the methods so careful and so conscientious.

Has Good Volume and Color

The wheat used in LILY WHITE has just the right balance. It is neither too hard nor too soft. This is important. Too much strength would not bake light, tender bread and, at the same time, flavory biscuits and pastry, but by blending we produce a flour that has everything—flavor, color, texture, and uniformity of granulation.

Repeatedly Cleaned—Milled to Perfection

Even the most experienced women who bake would be surprised if they knew how much dirt and substances unusable in high-grade flour are separated from the wheat grains used in LILY WHITE. All our wheat is cleaned four times, scoured three times and thoroughly washed before going onto the rolls for the first break. We use the "six-break" system. Only the choicest heart of the wheat finally becomes LILY WHITE FLOUR.

You See the Quality in Your Baking

The color, texture and uniformity of LILY WHITE show in everything you bake from it. Bread, rolls, biscuits, cake and pie-crust all reflect the quality of the wheat, the care in milling. In lightness, in flavor, in nourishment, you get in this flour more for your money. You get perfect results—not once, but always. This flour is guaranteed to give not merely satisfaction, but to be the best flour you ever used.

Try LILY WHITE—you will be convinced. IT is famous as "The Flour the Best Cooks Use."
